

TEX-SURE TEXTURE FINISH

Tex-Sure Texture Finish Exterior texture is an acrylic co-polymer emulsion having special inorganic pigments, quarts powder, sand and marble chips. It can be applied by Trowel / Rollers / Spray Gun to produce different patterns.

Features : Used for decoration, restoration, protection for interiors and exteriors. Easily washable and is resistant to algae and fungus. Having excellent adhesion and aberration resistance.

Packing Availability: in 30 kg packing.

Shelf Life : 6 months in seal packed bag.

Sr. No.	Test	Specification
1	Appearance	Rough-to-touch paste
2	Colour	Off White
3	Odour	Mild
4	Solubility	Completely miscible with water
5	Viscosity	340-350mm (using penetrometer)
6	Drying time @ 30°C	Touch dry- 20 to 30 minutes Recoat- 24 hours
7	Thickness	2mm per coat
8	Theoretical Covering	70 +/- 5 sq.ft/30kg bag per coat for 2mm thickness
9	Application	By applicator/Trowel
10	Shelf life @ 30°C	6 months for sealed bag (store in cool, dry place)
11	Finish	Rough and hard
12	Alkali resistance	Excellent
13	Water permeability	Excellent
14	Thinning (Volume)	Ready to use (3-5% water if required)
15	pH	8-9
